Consumable Material)

SUPPLEMENTAL AMENDMENT

Commissioner for Patents

MAIL STOP: NON-FEE AMENDMENT

P. O. Box 1450

Alexandria VA 22313-1450

Dear Sirs:

A. Introductory Comments

This amendment responds to a Notice Requiring Excess Claims Fees (37 CFR 1.121) mailed to Applicant's counsel on May 23, 2007, and it has been filed under the Certificate of Mailing Procedure established within the one month period of reply by 37 C.F.R. § 1.8.

Applicant's counsel spoke to the Examiner about this, and to Paralegal Deborah Nash at 571-272-6614. It was agreed that no excess fees would be due if all original claims were cancelled, and this amendment cancels original claims 1-20. (It is not required that the text of Cancelled claims be listed in an amendment).

Please further amend this case by entering the changes evident in the accompanying sections submitted under 37 C.F.R. § 1.121 (2003). The four sections presented by this amendment are respectively entitled "Introductory Comments," "Amendments to the Specification," "Amendments to the Claims," and "Remarks." All text has been marked up to show changes made relative to the immediate prior version, as set out in 37 CFR 1.121(b). Deleted matter is shown by strikethrough and additions are underlined.
